SECRETARY WEST FAVORS PUTTING INDIANS TO WORK

Congress Committee is Advised to Make Red Men Wage Earners and Thereby Self-Supporting

Washington, Feb. 23 (AP)—Favorable consideration of the bill to create an Indian employment service as a step toward assimilation of the Red Men in the industrial life of the nation was recommended today by Secretary West.

The rapid development of the west, the secretary said, in a communication to the chairman of the senate and house Indian affairs committees, has created a demand for the services of the Indian which presents a favorable opportunity for employment.

"The situation today is favorable to make immediate progress toward a solution of the problem by establishing the Indian as a wage earner, gaining a competence for himself," he added. "When an Indian reaches this stage he need no longer be a ward of the government. He and his children take their places as normal members of the body politic. So far as he is concerned the Indian problem has been solved."

Secretary West said it was his belief that the decades of supervision which the government has exercised over the Indians has developed them to the point where they are prepared for a steadily increasing participation in the industrial life of the nation.

COOLIDGE TO RESUME SIMPLE LIFE IN NORTHAMPTON

Respecting the president's wishes, Northampton, Mass., plans to welcome Coolidge back to civil life quietly. Not little speculation has been in progress, however, over the redecoration and refurbishing of the law office of "Coolidge & Hemenway" in the building (upper left), just concluded. The old home on Massasoit street (lower right) is little changed, although some of the old neighbors have moved away.

Northampton, Mass., Feb. 23 (AP)—The town of Northampton is calling Calvin Coolidge home.

Historians may find a similarity between the simplicity of Coolidge's departure from Plymouth, Vt., for Washington upon becoming President in 1923, and the orderly welcome back to civil life planned this year at Northampton.

These people of Northampton always will feel that they became original discoverers of Calvin Coolidge when they began choosing him for public office more than a score of years ago—setting an example state and nation followed. Since he was elected state representative and mayor here circles of his influence have reached out to touch the whole world. But Northampton knows him first.

And because these people have known him from old they are going to welcome him home simply—the way they know he would like best.

Most prominent on the city's welcoming committee are Maj. Thomas J. Hammond, in whose father's office Coolidge studied law a generation ago; Ralph W. Hemenway, law partner, whose office door still bears the linked names, "Coolidge & Hemenway"; Mayor Jesse A. G. Andre, and Judge Henry P. Field, partner of Hammond when Coolidge studied law in their office, and now president of the Hampshire county bar association.

motive—and have known it for two days.

"McGurn, of course, will fight. He will set up an alibi, using as his witness the young woman with whom he was arrested, but the alibi will not stand. All we want now is five more men. We shall have them soon."

The prisoner did little talking, but did not have any part in the crime. He said he could establish, through the hotel, that on the day of the sevenfold murder he did not leave his room until after 1:30 p. m.—three hours after the crime.

"We have been living at the hotel for two weeks," he said. "We rarely left the hotel and seldom arose before noon. I don't know a thing about the murder."

Police said McGurn had "plenty of reason" for wanting at least two of the slain gangsters out of the way. The Gueberg brothers, who were killed, are believed to have been the ones who twice last year sought to kill McGurn, and one nearly succeeded. He was shot as he stood in a telephone booth, being seriously wounded. On another occasion the automobile in which he rode was raked by machine gun fire, but he escaped harm.

Girl Secretary's Bail Is Reduced to \$10,000

Waterbury, Feb. 23 (AP)—Miss Josephine McGroarty, pretty, 25 year old secretary, who is charged with embezzling \$25,000 from her employers in order to buy "nice things," waived examination in city court here today and was bound over to the April term of criminal superior court.

Bonds were reduced from \$20,000 to \$10,000 but were not immediately furnished.

Public Defender W. W. Gager represented Mrs. McGroarty and former Judge Frank T. Reeves the Liberty Oil Co., complainants.

Always Safe

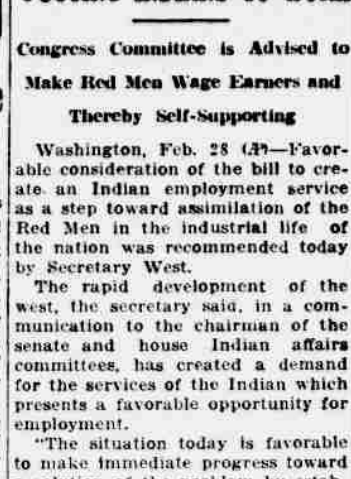

When your Children Cry for It

Here's relief and comfort for crying, fretful, feverish babies or children that you don't need to urge or command them to take. They love a delicious taste of Fletcher's Castoria. Your doctor will tell you it's absolutely safe, so you can give it freely and as often as needed to keep your children happy and well.

A few drops is all it takes to quiet fretful, feverish, colicky babies; relieve their biliousness, gas on stomach, constipation, etc.; soothe them to sleep in a jiffy. For like disorders in older children, you simply use a little larger dose of the same reliable Fletcher's Castoria. Don't use grown-folks' medicine with babies or children, specialists say. Ninety per cent. of them recommend Fletcher's Castoria; and thirty years of steadily increasing popularity proves they're right. To protect you from imitations, the Fletcher signature is on every bottle of genuine Fletcher's Castoria.

President Stratton will speak on the opportunities of New England. Industrial and otherwise, in the aviation industry. Chairmen of the six divisions of the council will report on the constructive legislation before their various state legislatures.

Banton Shakes Up His Homicide Staff

New York, Feb. 23 (AP)—Joab A. Banton, district attorney of New York county, today shook up his staff of his homicide bureau so thoroughly that only one of his several assistants assigned to duty there will be left on the job tomorrow.

No reason for the changes had been announced by Banton, and whether the bureau's handling of the unsolved Rothstein murder mystery had any connection with them could not be learned.

There were reports that another homicide case had been so handled as to make shifts in personnel advisable.

BRITON HADEN'S DEATH IS LAMENTED AT YALE

College Paper Says Passing of "Time" Editor Constitutes Loss to American Journalism.

New Haven, Feb. 23 (AP)—Commenting editorially today upon the death in Brooklyn, N. Y., of Briton Hadden, editor of "Time," weekly news magazine, the Yale Daily News said the world has been deprived of "a force which in less than a decade after graduation from Yale had already given much that cannot be easily reproduced and gave promise of a potent and valuable career in the science of general intelligence."

Hadden died at a hospital in his 32d year of infection of the blood stream, just six years to a day after he sent the first issue of "Time" to press.

As chairman of the Yale News, Hadden established a reputation in the university for brilliance and originality. He is credited with responsibility for the fact Yale men still sing "Bright College Years" to the tune of "The Wacht Am Rhein." During war years when a flood of "nationalism" threatened to engulf everything German Hadden fought a successful fight against changing the tune of the historic Yale song, according to the News.

"Briton Hadden's death is a great loss to American journalism," President James Rowland Angell of Yale said today.

Transcontinental Air Shows Profit of \$798

New York, Feb. 23 (AP)—Transcontinental Air Transport, Inc., which is to operate air-rail service to the Pacific coast, in its first earnings report since organization last May today showed a net profit of \$798. Of its assets \$2,200,000 is out on loan in the call money market and \$2,250,000 in time loans.

Although the line, which will run in conjunction with the Pennsylvania and Aetna, Topoka & Santa Fe railroads, had not started operations yet, a subsidiary, Northwest Airways, Inc., is carrying passengers between Chicago and the twin cities, Minneapolis and St. Paul, connecting at both terminals with through limited trains to and from the east and west.

Colonel Lindbergh is associated with the company and has selected after tests the type of planes to be used in the service.

"It is too early to establish a definite date upon which T. A. T. will actually undertake its operations," said President C. M. Keyes, who is also head of the Curtiss Aeroplane and Motor corporation. No attempt, he added, will be made to start service until the line is ready to operate in every detail.

JUDGE KEPT WAITING

Case of James Tobin Postponed For Two Weeks But Someone Forgot to Notify Court.

Everybody but the judge was in on the fact last night that the trial of James Tobin of this city, alleged proprietor of the Black Kittens Inn on the Plainville-Farmington highway, had been postponed in the Farmington court for two weeks. Judge J. Elliott Hewes and about 40 spectators were on hand but none of the other principals put in an appearance.

County Detective Edward J. Hickey and a number of his assistants raided the Black Kittens last Friday night and Tobin was arrested on a liquor law violation charge. Bonds were set for his release at the time and the trial was set for last night.

After more than an hour's wait in which time efforts were made to find Prosecutor Wessell Doherty and Mr. Tobin, Constable Nathan Fuller was reached by telephone and he stated that the prosecutor had continued the case for two weeks. He had been notified by Clerk of Court John J. Rourke, he said.

Judge Hewes then adjourned court and announced that the case was postponed for two weeks.

MARRIAGE IS HOLY, PRIEST DECLARES

Father Cletus Asks Serious Consideration of Matrimony

Father Cletus of the Passionist Order of West Springfield, in the second of his series of Lenten sermons at St. Mary's church last night, stated that young people today think more of their romance and their bankroll than they do of God in contemplating marriage. The church was filled as the pastor asked for more consideration of the spiritual factor in marriage than the material. "The Holiness of Marriage" was the subject of the sermon and in it he scored the man who considers it of more importance to arrange the details of a trip to Europe or the purchase of a car than to consider the choice of a wife and the preparation for matrimony.

"If more people in this nation would put God into their wedding agreements, then there would be fewer matrimonial wrecks scattered along the trail of life," he said. "Then matrimonial fidelity would no longer be a source of gibes on the stage and in the press."

"The woman," he continued, "gives her love, her affections and even her life, things more dear than all the jewels on earth. She asks only that the man remain faithful to her as a protector and guardian and over their contract God throws a mantle of protection. The sacredness of their union writes it in the records of heaven."

Speaking of new theories of marriage and of the records of the divorce courts, Father Cletus added: "We of the Catholic church are dubbed old-fashioned and strait-laced. It is not the Catholic church, though, and not its priests who are responsible for the eternity of marriage. It is the divine founder of Christianity Himself, for He has given the law and the church merely enforces its observance to the very end of time."

Claiming that the church always championed the cause of the woman, Father Cletus continued: "Through the years, the church and its popes have lifted you from a place such as that of the Turkish woman to a position as mistress in your home."

"And remember, men and women, it is not one of your privileges to decide for yourselves how large shall be your nursery, how many children it shall hold. That rests with God, by whom your children are given."

"My dear young men and women, who either contemplate marrying, who will marry some day, realize what a mighty and serious proposition marriage is and be ever so wise in the partner you choose to walk the checkered path with you. Let not beauty of feature or hard cash lead you to a decision. A 'stunner' or a Beau Brummel will be of no use when you face the stern problems of life. Those charms of feature, that gleaming gold, may make a hell."

MOUTH OF BOSPORUS Choked by Icebergs

Constantinople, Feb. 23 (AP)—For the first time in more than a hundred years the mouth of the Bosphorus is almost impassable because of icebergs and icefields which have floated down from the black sea. Turkish vessels arriving in Constantinople from the Black sea after the floating ice, report many icebergs are floating southward. One was said to be seven miles long. The sudden springlike warmth which has come to Constantinople after the terrific cold of the past two weeks is expected to melt the obstructions shortly.

SECOND DEFICIENCY MEASURE PASSES

Senate Sends Last Supply Bill to House Conference

Washington, Feb. 23 (AP)—The second deficiency appropriation bill, last of the necessary supply measures, was passed today by the senate and sent to conference with the house.

The senate struck from the bill all of its provisions which had been in the abandoned first deficiency measure, thus forcing a revival of the first bill with its controversial \$24,000,000 increase in prohibition funds.

The first bill is technically before the senate and the second now goes to conference between the senate and house.

The second bill carries an increase of \$2,700,000 in prohibition funds as recommended by President Coolidge and leaders hoped to obtain elimination of the \$24,000,000 increase voted by the senate previously on motion of Senator Harris, democrat.

Georgia.

ADDITIONS TO BILL

The following additions to the bill, proposed by the senate appropriations committee, also were approved:

\$5,000,000 for loans on seed purchases in the hurricane area, of Virginia, North Carolina, South Carolina, Georgia, Florida and Alabama.

\$48,000 for remodeling the Mount Weather, Va., weather station as summer white house.

\$100,000 for Mount Rushmore, South Dakota, memorial commission.

\$25,000 for dry land field station, Tucuman, New Mexico.

\$10,000 for coast guard academy building, New London, Conn.

\$50,000 for federal building, Salisbury, North Carolina.

\$30,000 for international street, Nogales, Arizona.

PAZO OINTMENT FILES

This Great Healing Oil Must Banish Eczema and Skin Trouble

Or Your Money Back. That's the Plan On Which Emerald Oil Is Sold By Fair Drug Dept. and All Good Druggists.

Make up your mind today that you are going to give your skin a real chance to get well.

You've probably been, like a lot of other people, convinced that the only thing to use was an ointment or salve (some of these are very good) but in the big majority of cases these sticky salves simply clog the pores and the condition primarily remains the same.

Go to Fair Drug Dept. or any other good druggist today and get an original bottle of Moore's Emerald Oil.

The very first application will give you relief and a few short treatments will thoroughly convince you of its value. By sticking faithfully to it a short while your skin troubles will be a thing of the past.

Don't expect a single bottle to do it all at once but one bottle we know will show you beyond all question that you have at last discovered the way to restore your skin to perfect health.

Remember that Moore's Emerald Oil is a clean, powerful penetrating Antiseptic Oil that does not stain or leave a greasy residue and that it must give complete satisfaction or your money cheerfully refunded.
